)	
To: The Commission		

REGARDING REQUEST of EXTENSION of TIME

The following is a request from David A. Lewis, an amateur radio operator (Extra Class licensee - call sign N1OL), who has been closely involved on both a professional and hobby basis with radio technology since 1970 and the Internet since 1994.

Over 2,000 comments have been filed on this docket, many comments are highly detailed and taken together provide the commission with an overwhelming amount of data and more than sufficient information to conclude the NOI.

In any undertaking of this nature comments will be misplaced, however the successful receipt of filed comments can easily be checked and diligent filers who value their comments will take the time to confirm receipt.

The misplacing of three comments cannot be considered as significant, the issue has been identified and the remaining 6 days is sufficient for responses to be filed.

In addition The FCC Commissioners have clearly indicated that this NOI is a priority.

As a consequence I request that the commission reject the request of Southern LINC, Southern Telecom, and Southern Company Services, Inc. (Southern) and move forward with closing the reply phase of this docket on August 6th as planned.

Respectfully submitted,
David Lewis, N1OL
2701 Mira Bella Circle
Morgan Hill
